INTRO

ZOV GROUP is a family company established in 1997 and managed by its members in the third generation. For more than 20 years we have been a leader in kitchen and other cabinet furniture production in Belarus and abroad. ZOV GROUP possesses around 50 thousand square meters of production floor space. Over 2 thousand highly qualified employees are involved in production process. All production facilities are equipped with the latest high-technology machines and fully automated lines. We constantly implement new technologies for being able to offer variously designed furniture of any complexity. Regular participation in trade fairs and exhibitions for furniture and industrial equipment as well as professional trainings keep us up to date on current trends in the industry.

INTRO

● Official sales representatives of ZOV GROUP

Our developed dealer network has more than 1000 self-managed retail stores worldwide. We actively support our representatives in their development activities, undertake joint market studies and introduce new products and solutions which are highly commended for outstanding functionality and innovative design.

INTRO

In spite of a constant expansion of production capacities we stay committed to the environment by using FSC-certified raw materials.

All our products meet ISO 9001 Quality Management System Requirements.

INTRO

We have acquired a high level of proficiency in producing high-quality and trendy products which are affordable for customers with different income. Our main goal is not merely to sell a product, but to present it in a carefully designed space.

Inspiring ideas, invaluable experience and continuous development are the reason why we succeed when creating a new product. We bring everything together under one roof so that you feel safe and comfortable. Accentuating quality and functionality we make our customers happier.

WE PRODUCE FURNITURE FOR LIFE.

THE MISSION STATEMENT

Our mission is not to produce and sell the furniture itself but to support our customers at the stage of solution finding how to make the space around them more comfortable and functional. We offer non-standard comprehensive interior design ideas by producing furniture for life. This is our main competitive advantage.

THE VISION STATEMENT

To penetrate new markets by offering high-quality, functional and demanded products which are affordable for customers with different income due to their wide range.

Kitchen

Your **home** should
tell the story of **who**
you are, and be
a collection of
what you love,
brought together
under one roof

Completed projects

Even when I **enter**
a **space** that I have to
design for a client,
I **listen** to what
tha **space** says -
the walls, the window.
You **can't change**
what that **space**
wants to be
